

Younger Onset Dementia Supported Independent Living (SIL)

St Louis On Sea is a registered NDIS Supported Independent Living (SIL) provider specialising in younger onset dementia support.

Our individualised 24x7 person-centred care encourages you to have choice and control to live your life. We provide an enabling, supportive and flexible environment providing assistance for your personal routine every day.

You will feel at home the moment you walk in the door. St Louis on Sea is absolute beachfront luxury, welcoming purpose-built home developed to support people living with younger onset dementia.

Home is at the heart of everything we do.

“I don’t see the dementia, I just see a person who needs support” - St Louis Homes Support worker.

Why Supported Independent Living (SIL)?

Supported Independent Living is assisting people living with younger onset dementia to continue to live their lives as independently as possible, ensuring they are engaged in daily tasks and making their own choices about day-to-day life.

This can involve assistance with personal support and household tasks such as cooking, cleaning, or gardening.

We require a minimum two-week respite stay initially to ensure that St Louis on Sea will meet your needs and goals for Supported Independent Living.

Why St Louis on Sea?

We work in partnership with you to ensure we meet your individual support needs.

- ✓ **Our Person-Centred Active Support model** considers each person's background, interests and requirements. We offer personalised support designed to enable each person to use their own skills, be creative, and find their own solutions.
- ✓ **We focus on health and wellbeing.** You will have the opportunity to be involved in all home activities and will enjoy delicious home-cooked meals daily.
- ✓ **Our patient step-by-step approach encourages engagement and promotes self esteem.** We ensure you feel part of the community with encouraging, purposeful and social involvement tailored to your capabilities, interests, and skills.
